These documents, prepared by state departments and agencies, describe the implementation and effects of the Legislature's requirement to make reductions through Control Section 4.10 of the 2003 Budget Act. The Legislature approved the Budget Act on July 29, 2003, and then-Governor Davis signed the measure on August 2, 2003.

The reduction plans required by Control Section 4.10 were initially determined by each department last summer, and the Legislature was notified of the previous administration's approval of these plans by the Department of Finance on November 3, 2003. While these documents were compiled by the Department of Finance, they were prepared by the respective departments and agencies. The Department of Finance has not reviewed this material, and has not attempted to edit or otherwise modify the material prepared by departments and agencies.
